

KC NAP, LLC
Fiber Project Buildings

		High Value Off Net	HVON are buildings with large bandwidth potential but more than 500' from the fiber backbone. A build is required and requires <u>at least</u> \$2K Monthly 5 Year term to cover build costs. Service can be rolled into the minimum monthly requirements			
Kansas City	Legend	On-Net	On-Net buildings are currently lit but may not have the right equipment to provide a specific service. If equipment installation is required the turn up time will be affected.			
<i>The list below is not all inclusive. If you have a question regarding a specific address contact sales@kcnap.com or call 816-252-5780. Most locations qualify for CTC Wireless Backup</i>		Virtual On-Net	Virtual On-Net are buildings within 500' of the backbone fiber. The pricing in VON buildings is the same as On-Net but installation time is required to turn up services and require at least \$1K Monthly 5 Year term to cover build costs. Service can be rolled into the minimum monthly requirements.

Fiber Project Buildings

		High Value Off Net	HVON are buildings with large bandwidth potential but more than 500' from the fiber backbone. A build is required and requires <u>at least</u> \$2K Monthly 5 Year term to cover build costs. Service can be rolled into the minimum monthly requirements			
Kansas City	Legend	On-Net	On-Net buildings are currently lit but may not have the right equipment to provide a specific service. If equipment installation is required the turn up time will be affected.			
<i>The list below is not all inclusive. If you have a question regarding a specific address contact sales@kcnap.com or call 816-252-5780. Most locatons qualify for CTC Wireless Backup</i>		Virtual On-Net	Virtual On-Net are buildings within 500' of the backbone fiber. The pricing in VON buildings is the same as On-Net but installation time is required to turn up services and require at least \$1K Monthly 5 Year term to cover build costs. Service can be rolled into the minimum monthly requirements.
